MEMORANDUM FOR:

C/DB/DPD-DD/P  
TAS/DPD-DD/P

25X1

SUBJECT : LMSD 3000 Proposal - Revised

REFERENCE : Attachment

1. As a follow up of our recent discussion on revised subject proposal, the attached memorandum from the Office of Communications is forwarded. While the attachment recommends that the 3000 concept as submitted not be accepted, it should be noted that the concept itself has not, for all time, been rejected. Rather, it is the intention of those concerned to keep the 3000 concept and any other possible communication ideas of the Lockheed Corporation in mind as the Office of Communications continues its advanced satellite communications planning in concert with appropriate defense elements.

2. With this in mind, the Office of Communications has clearance requests pending on certain Lockheed individuals in preparation for the establishment of regular liaison in communication matters with LMSD.
